processDocumention.txt

Search Feature (File Not Found)

0. Back 00.MainMenu 3.Exit

Sorry File Not Found,please enter the correct name .

1. Locker'sFileSystem_Wireframe

This screen shows a typical wireframe that you can create using **WireframeSketcher**.

With **WireframeSketcher** you get a rough, unfinished, hand-drawn look for your mockups. This way your stakeholders won't be distracted by little details and you can focus on what's important. When needed, you can instantly switch to a clean look.
